

# 2024 ATS ASPIRE FELLOWSHIP

## Call for Applications

### Deadline: March 11, 2024

The ASPIRE (Academic Sleep Pulmonary Integrated Research/Clinical) Fellowship is an exciting and novel training program to develop the next generation of pulmonary & sleep physician-scientists and leaders.

- **Fellows will be given a** \$10,000 annual grant (during their research years and \$3,000 during their clinical years) to be used for conferences, courses, or research endeavors.
- **Benefits for trainees** include shared resources and cross institutional feedback, research mentorship by a committee comprised of faculty from various institutions, and the opportunity to collaborate with other training sites.
- **Applicant's institution/** department needs a T32 grant or RO1 funded faculty (or international equivalent) in sleep medicine in order to be eligible.
- **Note that acceptance to** the ASPIRE fellowship is independent of acceptance into the Sleep and Pulmonary Training programs which follow routine fellowship pathways

Premiere Sponsorship for the ATS ASPIRE Fellowships is provided by:

Additional sponsorship by

*“The ASPIRE Fellowship provided me the means to foster professional and personal relationships with colleagues at other centers. It provided me a platform to present my research for meaningful feedback, which improved my grant applications and helped me to obtain NIH funding.”*

— Dr. Jason Ackrivo, MD, MSCE
